EXPERIENCE

Software Engineer

IM DIGITAL

📅 06/2022 - Present   📍 Miami, Florida, USA

ReactJS, NextJS, NodeJS, TypeScript

- Reduced a process time from 7 minutes to 30 seconds (+90% improvement), also reducing the RAM usage from 2GB to 300MB (+80% improvement)
- Reduced the time complexity of a function from $O(n^2)$ to $O(n)$, reducing the time taken from the function from about 15 seconds to less than 1 second
- Excelled under pressure, leading an entire development team and consistently delivering high-quality results within tight deadlines
- Engaged in diverse company projects, demonstrating versatility and collaborative skills across different areas
- Recognized for being proactive in problem-solving and driving initiatives forward

React Native Developer

IBM

📅 01/2022 - 06/2022   📍 Hortolandia, São Paulo, Brazil

React Native, TypeScript

- Implemented production updates for a banking application serving more than 100 million users, maintaining service continuity and system reliability
- Increased team efficiency by resolving a complex challenge previously unaddressed, demonstrating problem-solving excellence

Full Stack Developer

wBrain

📅 12/2020 - 12/2021   📍 Rio de Janeiro, Rio de Janeiro, Brazil

ReactJS, NextJS, NodeJS, TypeScript

- Led development of applications from conception to production

EDUCATION

Certified in Computer Technology

Federal Institute of Science and Technology

📅 2017 - 2019   📍 Cuiabá, Mato Grosso, Brazil

SUMMARY

Detail-oriented software engineer with a proven capacity to solve complex challenges and lead teams through high-stakes projects. Noted for reducing process times by 90% and algorithm runtimes by 10x while maintaining rigorous code standards in production environments, such as large-scale mobile banking. Adept in ReactJS, NextJS, and NodeJS, with versatile project exposure and a track record of rapid, high-quality delivery. Eager to architect robust systems that scale and perform.

SKILLS

JavaScript   TypeScript   ReactJS

NextJS   React Native   NodeJS

Flutter

LANGUAGES

English   Advanced

Portuguese   Native

KEY ACHIEVEMENTS

💎 **Huge performance improvement**

Reduced a process time from 7 minutes to 30 seconds (+90% improvement), also reducing the RAM usage from 2GB to 300MB (+80% improvement)

💎 **Algorithm Optimization**

Reduced the time complexity of a function from $O(n^2)$ to $O(n)$, reducing the time taken from the function from 10 seconds to less than 1 second (+90%)

💎 **Leading under pressure**

Immediately after starting leading a team was able to lead well and deliver under pressure and in a tight deadline

💎 **Parallel Project Leadership**

Managed three concurrent projects, leading two of them. Prioritizing tasks and ensuring on-time, goal-aligned results.
